

PLANTATION SHUTTER ASSEMBLY

Transform your space in just a few steps.

1

Size Measurement

Measure the W and H of the window opening to make sure the dimensions are accurate

2

Open the package

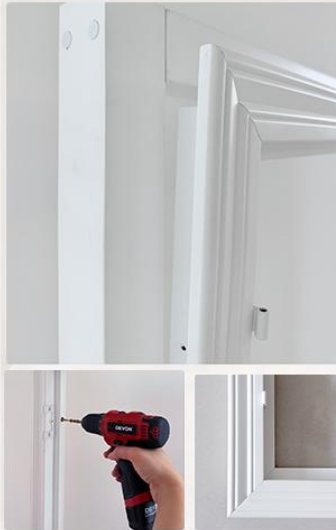

Open the package and check if all the accessories are included

3

Frame Installation

Assemble and secure the frame, then install it into the window opening

4

Install the panel

Attach the panel to the hinge and adjust its position

5

Installation inspection

Check if the louvers and panels are properly adjusted
